Dear Sir,

Department of Posts has been entrusted with the privilege of providing postal communications in the country and a range of services have been made available by the Department to this end. Of these, Speed Post is a premium service providing time-bound and express service which ensures delivery of letters and parcels weighing up to 35 kg between across the country.

2. At present, the Speed Post network has expanded even further. The reach of the network is unmatched and the service has become even more customer-friendly. The booking facility is available in all departmental Post Offices across the country. In major cities, booking facility is available round the clock from select offices. Similarly, the delivery of Speed Post is ensured in every nook and corner of the country. In addition to this, the following features have been introduced from time to time to make it more customer-friendly:

- Free pick-up from customer premises
- Credit facility under Book Now Pay later (BNPL) scheme
- Additional discount on advance payment of Speed Post charges
- Attractive discounts for high volume customers
- Complete end-to-end Track and Trace through Internet & android based mobile application
- Delivery information through SMS without any extra cost
- Centralized billing under National Account Facility
- Cash on Delivery (CoD)

3. As you can see, it makes good business sense to use Speed Post instead of private couriers, which are not regulated by any rules or norms, unlike Department of Posts, which is legally bound by the provisions of the Indian Post Office Act, 1898 to see that the best care is bestowed on mails.

4. Additionally, I would also like to mention here that in a test check conducted by Comptroller and Auditor General (CAG) in order to compare the performance/quality of Speed Post Service of Department of Posts with private courier agencies for delivery of mails, it was found that the delivery through Speed Post is better than private couriers. Chapter-III of CAG Report No. 20 of 2015 – Union Government, Communications and IT Sector laid in the Parliament and available with link http://www.cag.gov.in/content/report-no-20-2015-union-government-communications-and-it-sector may be seen for reference. The Times of India clipping covering the results of the CAG test check is also enclosed.

5. I shall be grateful if you could direct Departments/PSUs/organisations under you to use Speed Post while also bringing to their notice the statutory position in this regard. The Chief Postmasters General/ Postmasters General located in their station/area will be happy to offer all cooperation, advice and also work out customized packages for any special requirements.

6. I shall also be grateful if a copy of the directions issued by you and the Department /autonomous bodies/PSUs etc. is endorsed to Shri Brajesh Kumar, General Manager, Business Development and Marketing Directorate, 5th Floor, Dak Bhawan New Delhi-110 001.

With regards,

Yours sincerely,

NEW DELHI: Should we depend on private courier services? A Comptroller and Auditor General (CAG) study has found private couriers deliver only 90% of letters compared to 99% by speed post.

In major cities, the performance of speed post is faster and more reliable. The postal service delivers 99% of letters through speed post within 11-9 days as compared to 92% by private courier services that take up to 10 days.

At the local level, the delivery by speed post is 98% compared to 93% by courier services. While the time taken by speed post is 1-11 days at local level, it is 1-12 days in case of private couriers.

In a report on department of posts, tabled in Parliament recently, the official auditor has said the performance of speed post has been better not only at local level and in major cities, but it is the only reliable service at the tohsil and village level.

To compare the performance and quality of speed post with private courier agencies for delivery of mails, a test check was conducted by CAG in eight postal circles -- Gujarat, Maharashtra, Rajasthan, Tamil Nadu, Delhi, Andhra Pradesh, Uttar Pradesh and Madhya Pradesh. Checks were conducted by posting hundreds of letters.
In the test check, the auditor had posted 284 letters by speed post and 287 by different private couriers. The performance was based on the number of letters sent, letters actually delivered, and time taken for delivery of test letters.

Speed post still remains most reliable and account for more than 10% of the total revenue of the DOP. However, delivery of mails people had stopped relying on the department. But the auditor says the perception is wrong and speed post service in major cities. However, due to the service provided by the private couriers, the auditor said, it could be concluded that the speed post service of the department of posts (DOP) was better than the only 82% letters and time ranged from 1-2 days, while private couriers could deliver at the peril level only speed post could reach 100% addresses that lie within 7-12 days.
